

Wykłady Biochemia – IMDiK PAN (15 godzin)

Data	kto	tytuł
19.01.2021	Prof. Krzysztof Zabłocki Laboratory of Cellular Metabolism, Department of Biochemistry, Nencki Institute of Experimental Biology	"Principles of bioenergetics."
26.01.2021	Prof. Krzysztof Zabłocki Laboratory of Cellular Metabolism, Department of Biochemistry, Nencki Institute of Experimental Biology	"Principles of intracellular calcium signaling."
2.02.2021	Prof. Grzegorz Czapski Department of Cellular Signalling, MMRC	"Biochemistry of oxidative stress."
9.02.2021	Dr Michał Węgrzynowicz Laboratory of Molecular Basis of Neurodegeneration	"Arginine in healthy and diseased brain."
16.02.2021	Dr Michał Węgrzynowicz Laboratory of Molecular Basis of Neurodegeneration	"When proteins go bad: misfolding, aggregation and neurodegeneration."
23.02.2021	Dr Anna Barczak Department of Neurodegenerative Disorders, MMRC	"Gender-brain-neurodegeneration"
2.03.2021	Dr Anna Czarnecka Department of Neurotoxicology, MMRC	"Cholesterol metabolism in the physiology and pathology of the central nervous system."
